OLD CLIQUE IN HUNLAND MAY OBTAIN UPPER HAND

"Coup D'Etat" is Planned by Monarchists in Berlin, Says Correspondent

CIVIL WAR WILL FOLLOW

Bloody Days Ahead of Germany is Declaration of Writer

Government Already is Powerless Against Monarchists is Claim

(By Associated Press)

London, February 27.—The monarchists of Germany are contemplating an early coup d'etat in the opinion of the Mail's correspondent at Berlin, who says that the old official class with its general staff has been gradually getting the whip hand there since January 13th and now holds the government in its power.

"The threatened coup d'etat would be carried out in Berlin alone," he says, "and probably would be successful, although it would certainly result in a civil war and many murders. A large number of officers are said to be associated in the plot which aims at the overthrow of the present government and restoration of the old order of things."

FRENCH WILL NOT CONSENT

(By Associated Press)

Paris, February 27.—"The French delegation to the peace conference will energetically oppose the general sinking of the German fleet," says Stephane Lauzanne, in the Matin.

REPUBLICANS PREPARING TO NAME SPEAKER

Respective Candidates Aligning Forces For Clash Tonight

Three Candidates Are in Field And All Are Claiming Victory

(By Associated Press)

Washington, February 27.—Republican members elect of the next House of Representatives gathered here today from all parts of the country for the conference with the re-elected Republican members to nominate candidates for speaker.

Despite the confident statement of campaign managers it was evident from the attention given the first term members that nothing was being left undone to win their votes.

The three candidates are Frederick Gillette, Massachusetts, ranking Republican member of the Appropriations Committee; James Mann, of Illinois, Republican floor leader, and Philip Campbell, ranking Republican of the Rules Committee.

LAST MOMENTS OF WILHELM AS KAISER

LAST PHOTO OF WILHELM AS KAISER

This remarkable photograph is the last one made of Wilhelm-Hohenzollern as Emperor of Germany. The photo was made at Spa, Belgium, a few hours previous to his abdication and flight to Holland. The ex-Kaiser is shown on the extreme left wearing an Austrian uniform, talking with Von Hintz. In the center is shown the former Emperor of Austria wearing the uniform of a German officer. The others are members of the ex-Kaiser's personal staff, many of whom accompanied him in his flight to Holland.

NO FORMAL EXPRESSION ON LEAGUE OF NATIONS WANTED AT THIS TIME

Announcement Made Today That No Resolution Asking Indorsement Will be Submitted at Present Time

NO WAR IN TWENTY YEARS

Republican Members Continue Opposition to Tentative Plan

Exhaustion Would Make European War Impossible For 20 Years

(By Associated Press)

Washington, February 27.—Renewed discussion of the league of nations today in capitol cloak rooms and corridors followed the White House conference last night at which President Wilson outlined the reasons upon which he predicted his belief that the future peace of the world rests upon such an organization.

Republicans apparently have not changed their views and will continue their opposition until Congress adjourns.

Details of the conference continued to develop today in the discussion between White House guests and other members. One of the developments was the apparent certainty that the President does not wish formal expression at this time on the tentative draft.

No resolution of endorsement is to be brought before the Senate at this time.

The President is understood to have said Germany was the only menace to European peace and no war in Europe was possible before 20 years at least because of exhaustion of the countries.

SAIL FOR HOME

(By Associated Press)

Washington, February 27.—The War Department announced today the sailing from France of 11 transports bringing in all 550 officers and 9,000 men.

KANSAS GOVERNOR TAKES ISSUE

Governor Henry J. Allen, of Kansas, in a statement issued upon his return from Washington, where he appeared before Congressional committees investigating charges that the Thirtieth Division, Kansas, were inadequately supported, takes issue with the statement of Major-General Traub commander of the division, made before the investigating committee, that the troops were well supported and not sacrificed, according to a report from Topeka. Governor Allen declared: "General Traub's statement that no complaint has been made of the conduct of the battle of the Argonne except by civilians was astounding to me in view of the fact that my entire presentation was from the testimony of his own officers and men."

TRANSPORT IN DISTRESS.

New York, February 27.—The four-thousand-ton army cargo transport Roman was reported helpless and adrift on Saturday last in a gale 600 miles east of Bermuda by the steamship Charybdis, of the Quebec Line, which arrived here Wednesday. American naval vessels in Bermuda were heard answering the S. O. S. and two rescue ships, the wireless said, were being sent to the aid of the Roman.

Berlin Reports Insist German Armistice Commission Has Left Spa After Break-off

NO REASON IS ADVANCED

Washington Officials Inclined to View Report as Incorrect

Ludendorff and Von Hindenburg To Hold Meeting in Berlin

(By Associated Press)

Geneva, February 26.—Today's papers print a Berlin dispatch stating that owing to the sudden suspension of armistice negotiations the German armistice commission left Spa this morning for Berlin.

The reason for the reported suspension is not given.

General Ludendorff is expected to reach Berlin tomorrow and Von Hindenburg is expected there soon.

Negotiations between allied and German financial, economic and military missions have been in progress at Spa for some time, but there has been no intimation that anything in the nature of a crisis had developed there. It would seem probable that the meetings, if they have been broken up as reported, have been suspended only temporarily.

OFFICIALS SEE NO DIFFICULTY

(By Associated Press)

Washington, February 27.—Officials here believe Berlin dispatches referring to suspension of the armistice negotiations either were based upon misinformation or have been misconstrued by Swiss papers.

No advices received in Washington cast doubt upon earlier dispatches reporting conclusion of the negotiations with the acceptance by the Germans of the drastic renewal conditions.

SHE STUCK AT POST AND GETS COVETED MEDAL

First Woman to Receive D. S. C. Wins it by Staying with Wounded During Bombing

(By Associated Press)

Washington, February 27.—The first woman to win the American army's distinguished service medal is Miss Beatrice McDonald, of the Reserve Nurse Corps who was seriously wounded while remaining at her post with wounded men at a British casualty station during a German night raid.

Secretary Baker invited her to the War Department today to receive the decoration with formal ceremony.

He had been ill of bronchial pneumonia in the hospital since February 1. Mr. Borland, in company with other Congressmen, had been making a tour of the lines formerly held by the American troops and visiting units from his district. He had been in Congress ten years, most of the time being spent in turmoil. He was the author of the famous Borland resolution providing for an investigation of the "Big Five" packers over which two Congresses fought.

PALMER WILL BE THE NEXT ATTY. GENERAL

Alien Property Custodian is Nominated by Wilson to Succeed Gregory

Long Years of Experience is Record Back of New Official

(By Associated Press)

Washington, February 27.—A. Mitchell Palmer today was nominated by President Wilson to be Attorney General.

Mr. Palmer probably will take office March 4th, the date tentatively fixed by Attorney General Gregory when he resigned several months ago, to return to private practice of law.

The resignation of Mr. Palmer as Alien Property Custodian has not yet been announced, and there has been no intimation as to who will succeed him.

Mr. Palmer is a native of Pennsylvania and was elected to Congress in 1908. He served three terms.

Since 1912 he has been a member of the national democratic committee. In 1914 he was defeated for Senator on the Democratic ticket by Senator Penrose. It has been generally reported that he was offered the war portfolio in President Wilson's first cabinet but asked to be excused because he was a Quaker.

MIDNIGHT BLAZE DESTROYS AUTO

Fire of a mysterious origin Wednesday midnight destroyed a new Maxwell automobile and other property owned by John Evans, corner Main and Henkle streets, to the value of \$1600, and only timely arrival of the fire department prevented a still greater loss by spreading to adjoining buildings.

The fire apparently started in or near the automobile, and the ma-

chine, garage, workshop, shed and store house were virtually destroyed. The insurance on the destroyed property is about \$950, so that Mr. Evans' actual loss will probably exceed \$600.

How the fire started could not be ascertained, as the buildings were ablaze when first noticed. Neighbors state that they believe they heard an explosion just prior to the beginning of the fire, but whether this was an automobile back-firing or an explosion which resulted in the fire, is not known.

Mr. Dones left his law practice in October, 1917, to assist with war work in the district attorney's office. Following the resignation last August of J. M. Hengst as first assistant in the Columbus office, Dones was appointed to fill the vacancy and has had charge of the work before the grand jury during Mr. Bolin's absence in Cincinnati on court duty. He will return to his law practice as a member of the firm of Bradford, Doud, Crawfis & Dones with offices at 21318 New First National Bank building.

FARM BUREAU TO MEET SATURDAY

An important meeting of the Fayette County Farm Bureau will be held at the common pleas court room Saturday afternoon at one o'clock, and the executive committee is urged to be present promptly at the time set. The meeting will be for all members of the Bureau, and their attendance is urged.

Among matters to come up for discussion will be the re-appraisal of real property in the county, and County Auditor Pine will probably give a short address.

The live stock committee will report considerable progress in its work and the Boys' and Girls' Club work will receive attention.

Another important point to be considered is the proposal carried up from the last meeting—union with the State Federation of Farm Bureaus. Jefferson township, which has 100 or more members, is expected to submit a plan whereby the membership of the county may be boosted to exceed the 1700 members in Clinton county.

All new members are to be reported at the Saturday afternoon session.

AH! SHAKESPEARE COMES TO TOWN!

Shakespeare came to Washington some time during Wednesday night, and hurriedly left the city Thursday forenoon because he was not wanted here.

However the modern day Shakespeare bore little resemblance to the Shakespeare of never-dying fame. He was just a common, ordinary, down-and-out and faced Probate Judge Allen on a charge of train riding. He even entered a plea of guilty to the charge. He, however, entered a plea of not guilty to reading from the writings of his famous predecessor. His father had read Shakespeare he announced with pride.

"Well, 25 and 30 days in the works or leave town!" said Judge Allen. "I'll take the latter!" said Shakespeare and he hurried hence.

Serious Problems

Apparently it will be a difficult, if not impossible task, for any great country after the establishment of the league of nations to remain outside the organization and be prosperous as a result of world commerce and business.

Such an organization of the nations would doubtless contemplate, impliedly if not expressly, a control of the trade of the world and at least limited reciprocal trade relations which would operate to the disadvantage of the non-member nations.

Whether the league of nations would be possible as a workable, available world-wide organization without the participation of the United States is very questionable, but it is by no means beyond the realms of possibility that the tremendous alliance of European nations, certain to follow the framing of the peace treaty at Versailles, might assume unto itself world-wide scope. In that event it is easy to see, in such an alliance, restoration of the "offensive" features so prominent in all former European alliances.

Just how participation in such an alliance will affect trade relations, tariff laws and immigration regulations, heretofore under the exclusive sovereignty of the individual nations, is another problem for serious thought.

While the constitution of the league of nations will probably carry no specific regulations on those all-important questions, so vital to each nation, yet it seems impossible that present conditions could remain unchanged.

American labor especially, and American business, through and through, have, because of tariff regulations, different social conditions and abundant opportunity, been on an entirely different plane from that obtaining in European nations and it is that plane which must not be jeopardized by any pact, no matter how lofty the purpose.

We must keep an open mind while these gigantic proposals are debated. There is no more need for precipitate action than there is for petty fault-finding.

We must not forget the practical and the real in the pursuit of the glorious ideals which are so beautifully pictured, neither must we, in selfishness turn a deaf ear to the pleading of the golden opportunity to assist the world.

Some Prospective Authors

General Ludendorff, who has for some time past been, like the former Kaiser, enjoying a vacation indefinite in its prospective duration, asks President Ebert for an opportunity to express his views of the war to the German people and to speak a word in his own defense.

At present Ludendorff is sojourning in Copenhagen and in the rest and quiet which he states has been denied him in his native land he has written down for the German people a history of his life and a record of his activity which, he says, he feels confident will furnish complete justification for his every act during the war and "show where the roots of our misfortune are really to be found."

The former Kaiser announced, a few weeks ago that he too, at the proper time, was going to write a book, tell the whole story and at the same time vindicate himself and tell the German people just who was the author of all the woes that have fallen upon them.

When these worthies and a few more get to writing books about each other, explaining, exposing and informing, no matter if the stories are all the offsprings of selfishness and hate, the world is going to learn some interesting facts.

It is to be expected that strict adherence to truth will not dull any of these prospective narratives and at the same time the world may read the most amazing revelations when they are made, secure in the knowledge that everything they say about each other is true and the denials of guilt made by each author may be passed by.

The German people, however, if they are like other people, would be more interested in the future than in the swan songs of William Hohenzollern, Ludendorff and the other conspirators. They know about them, but they don't know the future.

Another Orphan

Old John Barleycorn is experiencing as much difficulty, these days, in finding a home as some of the ex-leaders of Prussian militarism.

Really, of the two, the former Kaiser seems much more comfortably located in Holland than old John, who is ordered to leave and hasn't yet found a place of residence.

Quebec, the last province of Canada, will close its doors on May first. China and Cuba likewise are serving notice that John can't take up his permanent abode there and so it goes all the world over.

POEM FOR TODAY

ANY FOOL CAN KNOCK

Don't criticize you neighbor's faults,
 No matter what they do,
 Don't ridicule the masses or
 Malign the chosen few.
 Don't think yourself a censor for
 The silly, human flock,
 And just remember as you go,
 That any fool can knock.

Don't laugh at those who make mistakes
 And stumble on the way,
 For you are apt to follow them,
 And almost any day,
 Don't think the others shifting sand
 While you are solid rock,
 And don't forget, for heaven's sake,
 That any fool can knock.

Don't be a puller-down of fame
 On other men conferred,
 Don't give a parting kick to one
 Who fell because he erred,
 Don't think that you are perfect and
 The only size in stock,
 And now, once more, just bear in mind
 That any fool can knock.

BAKER IS ASKED THAT OBJECTORS GET FAIR DEAL

Court Martial Cases Will be Reviewed and Changes Made Where Necessary

Washington, February 27.—(By Associated Press)—Chairman Chamberlain read into record of the senate committee investigating court-martial Wednesday a confidential order from the adjutant general of the army said to have been issued at the direction of the secretary of war, directing that conscientious objectors be not treated as violators of the articles of war. The camp commanders were instructed under no circumstances to give the contents of the order to the newspapers.

The order said conscientious objectors were to be treated with "tact" and "consideration" and were to be segregated from others in the camp. The order, dated October 10, 1918, was said to have been issued after some conscientious objectors had offered to become soldiers.

Major General Crowder, judge advocate general of the army, appearing before the committee, said that all important sentences imposed upon men of the army during the war and found upon review to be too severe, would be mitigated through the president's power of remission.

General Crowder said that within 60 days the 5000 sentences imposed since the beginning of hostilities, would be reviewed by a special board

The "first robin" has been reported; but that by no means makes sure that spring is "just around the corner."

Which leads us to suggest the probability of many more "bad" wash days for the housewife who does the washing at home.

Whatever the condition of the weather, you can always have ideal wash days by sending your washing to us.

LET'S TALK IT OVER—BY HAL COFFMAN

INTEREST

Interest in SMALL things brings interest in BIG ones later on. Providing you hold on to the small ones and get your start. Many people who never had a hundred dollars in one lump before own Liberty Bonds today. And unfortunately there are just as many who want to spend the ones they do own. Don't listen to what some sharper says about—"they're no account—interest isn't high enough—they are selling below what you paid for them, etc." If they are all that, why does HE want them? Don't forget you are getting your interest regularly. Instead of selling, buy all the more. Uncle Sam is a pretty good old scout, get in and STAY IN partnership with him.

headed by Brigadier General Samuel T. Ansell, who was acting judge advocate general during the war and whose testimony as to severity of the court-martial sentences led the committee to extend its investigation.

Steps towards mitigating the sentences were begun. General Crowder said, prior to the investigation by the senate committee. Practically all the men sentenced to dishonorable discharge and imprisonment, he said, already have had the dishonorable discharge provision revoked.

He added that 1200 men sentenced to long terms at Leavenworth, Kan., had been honorably restored to duty in the last year.

TRAFFIC POSTS HELD MENACE

Toledo, February 27.—(Associated Press)—Safety zone standards placed in city streets by the safety department were held to be a public menace by Judge Walters, of Circleville, in an opinion handed down in the Lucas County court of appeals. The decision was the result of a suit brought by a Toledo woman, who alleged she was injured by tripping over one of the markers. A lower court held she had no right to sue the city, but the appeals court gave her the right to sue for personal injuries.

News of Interest to Women

The Washington C. H. branch of the Woman's Suffrage Association will make excellent showing at the State Convention now in session in Columbus. While the house to house enrollment canvases to ascertain the number of women in Washington and Fayette county desiring the right to vote, had been very tedious and not possible to complete before the convention, yet the reports going in show both town and county well "over the top." The names necessary to secure a majority in town were 1922, but the lists now completed have considerably more names than the requirement.

Mrs. D. S. Craig, local delegate and chairman of the enrollment committee, presented this roll at Thursday's session.

Mrs. Josephine Kerr is also official in attendance as the Congressional representative from the Seventh District.

During the recent enrollment many people were found confusing the militant suffragettes of the "Militant National Woman's Party"—to which belong the pickets at the White House and those women who have been conspicuous in their sensational and ill-timed actions—with the Woman's Suffrage Association, with

which the Washington branch is associated.

The two parties are quite distinct and no women more decry the militant methods which have been used in Washington than the members of the Suffrage Association. The Woman's Party was formed by women who strongly advocate militant measures and refused to abide by the non-militant ruling of the Woman's Suffrage Association and left it to form the aggressive organization called the "Militant National Party," the actions of its members having called forth disgusted censure from the much larger and stronger organization. A number of local women refused to put their names on the enrollment list because of mixing up in their thoughts these two organizations.

The Woman's Suffrage Association wants it distinctly understood that it has never affiliated with the Woman's party which has been doing such militant, spectacular things in Washington, and that every suffragist in America deprecates their actions. They claim that they should no more be held responsible for them than the men of America should be held responsible for the I. W. W. anarchism.

Wesley Chapel Mite Society met at the home of Mrs. Frank Tilton, Wednesday afternoon. It was a very interesting meeting, thirty-one members responding to roll call and relating their experiences in earning fifty cents for the special collection which amounted to twenty dollars.

The new President Mrs. Noble took her chair for the first time, and presided over the business session which was followed by a beautifully rendered program. Mrs. H. V. Rodgers played a march on a cabinet organ, which was requested by one of the members, who had heard her play on a similar organ forty-five years ago. Mrs. Ellis Bishop and Mrs. Beachell read papers, and Mrs. Ola Boyer gave a reading; Victrola music and refreshments adding greatly to the social hour.

The assisting hostesses were Mesdames H. V. Rodgers, John Near, Bryant Conner, Charles Highmiller, and Wyatt.

Several visitors were present, and a new member, Mrs. Cochran was welcomed in the society.

The women of the W. R. C. extend an invitation to all Civil War Veterans, Spanish-American War Veterans and Soldiers of today to be their guests at a supper and program at the G. A. R. Hall Saturday evening.

The Executive Committee have the affair in charge and are making plans for an evening of much pleasure for these heroes.

The Masquerade dance and Mardi Gras carnival at the Eagles' Hall next Monday night, March the third, given by the Woman's Guild of St. Andrew's Church is being anticipated with eagerness and many a costume, fanciful, comical and grotesque is now in process of making and will participate in the merry gathering of masks.

The women of St. Andrews inaugurated the Mardi Gras festival last year and it is their intention to make it an annual institution, winding up mid-winter social festivities before the incoming of the Lenten season.

The Mardi Gras festival is the most fantastic and merriest of carnival—an event of Harlequin revel that is the big event of the year in those sections where it has long been popular.

The Mardi Gras idea first originated in New Orleans, where it is still celebrated with an elaborateness and brilliancy known in no other city.

Northerners flock in great numbers to attend the New Orleans Mardi Gras and its interest has become national. It is the last social function before Lent and the approaching season of social inactivity makes it all the more joyous.

Everybody who possibly can is asked to costume and join in the merry making of Monday night at the Eagles' Hall, but whether in costume or attending as a spectator

there will be plenty of amusement in the gay scene.

Whelpley's orchestra, with an established reputation for popular dance music, will play.

The W. C. T. U. will present a Frances Willard Memorial program at the Federated Club room Friday afternoon. Mrs. F. G. Carpenter will make the talk and there will be good music.

Judging from the number who say they are going to attend the dance to be given by the Pythian Sisters and the Band, Friday the 28th, there will again be another large attendance.

It seems the popularity of these social events is spreading to the neighboring towns as quite a number from New Holland, Greenfield, Jeffersonville and other towns say they are coming.

And in order that interest may not wane the Band and Orchestra have again secured a lot of new dance music including "Sweethearts" and "Jump Jim Crow" from the opera "Maytime."

The committee in charge feeling that the popularity of these dances is due not alone to the splendid music, but to the fact that dancing stops promptly at Midnight so that those who attend are not worn out the following day have again decided to start promptly at 8:30 and stop promptly at 12 although requested by many to continue until a later hour.

All arrangements are complete for those who attend to have a royal good time.

SAVE MONEY ON SHOES FOR THE WHOLE FAMILY

From Foochow, China, comes this letter from R. E. Gardner, Foochow College: "Neolin Soles have solved the shoe problem for me. Other soles wore out quickly on the rocky roads here, and I had no end of trouble with them," he writes.

Where other soles fail, Neolin Soles always stand the test of hard wear and rough usage. This fact points the way to economy. Buy Neolin-soled shoes for the whole family, and so save shoe money. And have Neolin Soles put on your old shoes, too.

These durable, flexible, and waterproof soles are scientifically made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear all other heels.

told members of the congressional foreign relations committees last night that unless the United States entered the league of nations the league would fail and chaos and turmoil beyond description would result in Europe.

Views of Republican members opposing the league constitution as reported to the peace conference apparently were not changed by the conference.

The president was said to have stated that it was necessary that the United States stand to the support of the Czecho-Slovaks, the Jugo-Slavs, Poland and other weak and struggling peoples made free as result of the great war.

The president was said to have told the senators and representatives that the league constitution adopted was proposed by Great Britain, but was not the one drawn by General Smutz one of the British authorities on the league proposal. Drafts presented by the United States, France and Italy were rejected.

Discussion of the constitution as presented to the peace conference, was said to have been quite general and the president was questioned closely, especially by Senator Brandegee of Connecticut, Republican Leader Lodge and Senator Knox of Pennsylvania, former secretary of state, took very little part.

The president, after making an opening explanatory statement, answered all questions freely and especially emphasized that his guests were free to discuss the conference and all its information with newspaper men or others.

One question on which much time was spent was whether a nation, once in the league, could withdraw, raised by Senator Brandegee. The president was said to have held that any country could withdraw, but Senator Brandegee contended that this would be impossible under the constitution as now drafted.

President Wilson denied that the league plan would interfere with the Monroe doctrine, declaring that the doctrine would be guaranteed by all the member powers in the world society.

The president was said to have held that the mandates in the constitution were not compulsory, but required the consent of the nations to which the mandate was assigned. Senators said he expressed the opinion that the United States would desire to become a mandatory for Armenia.

On the question of American sovereignty the president was said to have taken the position that recession of American sovereignty was not a new precedent, being an incident of every treaty.

Chairman Hitchcock of the senate committee said the president held that decisions of the league's executive council on disarmament would not be binding until specifically approved by each signatory nation, and that, consequently, the American Congress would have the opportunity to pass on the apportionment of armament for every nation concerned. The presi-

dent said that this section had been misconstrued.

Concerning the clause giving the right to the league to consider acts threatening world peace, President Wilson said that the clause was indefinite and would be made more clear by writing in a safeguard which would require that every recommendation by the council should be unanimous.

It also was said that the president informed the senators and representatives that the disarmament provision would not interfere with the military training of men, but it was evident that a trained body of men would not be a danger to world peace if their armament supplies were kept in check.

Mr. Wilson said the provision for enforcing the determination of the council in case it was disobeyed by any nation would apply in only one case, and that where the party against whom a decision was rendered had property, including territory, in its possession which it would not surrender.

In conceding that some sovereignty must be surrendered by membership in the league, the president declared that it was inconceivable that there should be any concert of action by nations to eliminate war and protest the weak unless each nation was willing to give up something.

'HI-Y' BOYS ENJOY SECOND SESSION

The second session of the newly organized "Hi-Y" club, at the Y. M. C. A. Wednesday evening, proved enjoyable and beneficial throughout and as a result the members are highly enthusiastic over the new club with the result that it promises to be one of the most popular clubs in the city.

More than three score young men were seated at the tables for the delicious meal prepared by Mrs. Geo. H. Hitchcock, Mrs. C. W. Lewis, and Mrs. Frank Rothrock.

The club had as a guest Coach Bird, of the O. S. U., who refereed the recent basket ball tournament at Greenfield, and who expressed his pleasure of being the guests of the club which contained the winning team.

Jack Harsh, a returned soldier, was among the speakers, but his speech failed to strike a responsive chord among the boys, who plainly did not agree with much of what he said.

Rev. McWilliams proved himself popular in a short, sparkling speech which appealed greatly to the boys.

Following the supper and speeches the boys engaged in Bible study for a short time, and finished up the evening with gym exercises and a plunge in the pool.

CAMP LOGAN CLOSES GATES

Chicago, February 27.—(By Associated Press)—Camp Logan, an auxiliary of the Great Lakes Naval Training Station and one of the best rifle ranges in America, has closed its gates. Thousands of sailors were trained in the use of rifles and small arms during the one year existence of the camp.

"This camp, opened when the state of Illinois turned over the land near Zion City for the period of war, has been very efficient as a school for instructors," says the Great Lakes Bulletin, official paper of the Naval Training station. "Many instructors were furnished to the various ranges along the Atlantic coast."

Camp Logan, at one time, had a personnel of more than 2,000. There were seven ranges for different distance shooting. The buildings will be presented to the state for having offered use of the land. All equipment of the range will be shipped to the 200 yard range near North Chicago.

JACK QUINN

After all the publicity and squabbling over the veteran pitcher, Jack Quinn, who was unconditionally released as far back as 1912 by the New York Yankees, he finally comes back to the Yankees at the cost of four promising youngsters. Quinn, after his release in 1912, played in the Pacific Coast League until it disbanded early last season. He then came to the Chicago White Sox, who bought him as a free agent. But the New York club had already purchased him from his former club. The real reason for the rumpus over the veteran twirler is the record he made with the White Sox after he joined that club last Fall. He won six games and lost one, and was the only Chicago pitcher who delivered any victories in the last fortnight of the season.

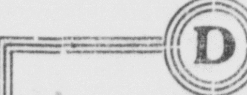

CLAIMS JAPAN IS WILLING TO CONCEDE POINT

Leading Newspapers Says Japan Not Obligated to Return Kiauchau But Will Do So in Order to Secure Peace

Tokio, February 16.—(By Associated Press Correspondent)—Japan is not obliged to return Kiauchau to China but is willing to do so on terms that will secure the peace of the East, say the Chugwai Shioyo (Journal of Commerce). Commenting on the announcement by the Chinese peace delegates in New York that China would insist on the restitution of Kiauchau and the revision of commercial treaties with Japan, the paper says that as to the latter Japan is willing to undertake the revision of the present treaties but that such a step will have no practical value unless China takes steps to restore internal harmony and control of the bandits.

As to Japan's loan to China, the Chugwai Shioyo assured the South China party that Japan would not hand over the balance of 20,000,000 yen loaned for China's participation in the war, the object of which the Southern Party has regarded as suspicious. Japan's railway loans the paper said, should be excepted because the railways are urgently needed and if the loans were extended with proper care, they would not have any political significance.

One of the claims of China at the Peace Conference is the return of Kiauchau which was occupied by the Germans and, as a German colony, was captured by Japan early in the war. According to semi-official Chinese sources in Peking, pressure was brought to bear by Japan to induce the Chinese government to disavow the action of its delegates at the Peace Conference. NO COMMENT ON MEXICAN DEAL

Mexico City, January 15.—(Correspondence of the Associated Press).—Government comment is not forthcoming on the proposals in the American congress and the California legislature that President Wilson be instructed to open negotiations with the Mexican government for the purchase of Lower California and a part of Sonora. It was intimated, however, that comment would not be proper with the project only in its initial stages and with the backing thus far shown.

Press comment is entirely against the sale by Mexico of its territory and pro-Ally papers declare that Mexico pins its faith on President Wilson's pronouncement for small nations. No attempt is made to refute the charge that the government of Lower California is almost independent of the Mexico City government.

Peels Off Corns Between Toes

The Great Corn Loosener of the Age. Never Fails. Painless.

A corn mashed, squeezed and crushed, all day long, in between two toes! You can try the desperate, "street" "m. rough" way and try to die!

"Two Drops of Gets-It—That's All!"

It out and fail. Or, you can try the sensible, peaceful, painless, easy way and use "Gets-It." It's easy for "Gets-It" to remove corns in hard-to-get-at places. It's a liquid—a wonderful painless formula—it has never been successfully imitated. It settles on the corn and dries immediately. Instead of digging out the corn, you peel it out painlessly. There's no sticky plaster that doesn't stay "put," no sores that irritate or rub off. You reach the corn easily with the little glass rod in the cork of every "Gets-It" bottle. It does not hurt the true flesh. Try it, and smile! It's a blessing; never fails. "Gets-It," the guaranteed, money-back corn-remover, the only sure way, costs but a trifling amount. Sold by E. Lawrence & Co., Chicago, Ill.

"Sold in Washington C. H. and recommended as the world's best corn remedy by Brown's Drug Store"

ONE PERCENT LAW MAY BE SUSPENDED TO RELIEVE CITIES

Vote of People May Be Used to Eliminate Financial Embarrassment

Columbus, O., February 27.—Temporary suspension, on majority vote of the people, but not repeal or amendment of the Smith 1 percent law is embodied in the plan for immediate relief for cities and other taxing districts in financial distress, agreed on by unanimous vote of the special joint taxation committee of the legislature.

It is substantially the plan advocated by Cleveland bankers and the organization of Ohio municipalities.

Municipal councils, county commissioners, boards of education and other tax-paying officials are to be authorized to compute existing deficits in operating expenses and estimate deficiencies in current operating expenses up to Jan. 1, 1920, and submit to vote of the people the question of a special levy, for not to exceed five years, to meet deficits.

If voters approve the levy, five-year bonds may be issued in anticipation of collection of taxes levied.

This, the committee points out, puts the question of relief squarely before the communities affected and enables them to get a new start next January under present provisions of the Smith law.

The committee will ask the legislature to enact the proposed law as an emergency measure, thereby eliminating the 90-day referendum period and enabling taxing districts to submit the question of relief immediately at special elections.

C. D. Laylin and L. D. Johnson, counsel for the committee, have been instructed to draft the measure and have it ready for introduction the middle of next week. It is a separate bill and not a part of the big taxation measure, which may not be completed for a month.

WILL CELEBRATE MISSIONARY ACT OF 100 YEARS AGO

Dublin, January 29. — (Correspondence of the Associated Press) — Captain Stephen L. Gwynn, former Nationalist member of parliament, now chairman of the executive committee of the Irish Centre Party, and several Irish Nationalist officers who served in the war, have sent an appeal to Premier Lloyd George to submit the Irish question to the Peace Conference.

Captain Gwynn was active in the voluntary recruiting movement in Ireland in the latter part of the war when it was feared that conscription would be imposed upon Ireland.

In a letter to the Premier, Captain Gwynn and his associates say that the problem of Ireland could not be better described than in the words of President Poincare in outlining the task of the Peace Conference as being "to remake the map of the world and respect the rights of nations, small and great, to dispose of themselves."

BRITAIN FEELS U. S. STEEL WILL NOT HURT TRADE

Thinks Price of American Product Will be Too High to Compete Successfully

London, February 26. — (By Associated Press Correspondent) — Belief that because of the high cost of production of iron and steel in America, the United States will not be able successfully to compete with Great Britain in neutral markets, is expressed in trade circles here, says a statement made by the American Chamber of Commerce in London.

The United Kingdom, it is asserted, will maintain first place in these industries if it gets assistance from the state and has no trouble from labor. Great activity is to be seen among manufacturers who are converting their machinery to a peace basis. To meet the demand of steel makers the government is seeking to secure 1,000,000 tons of pig-iron from the United States for delivery this year.

Germany, the chief pre-war competitor of Great Britain, has temporarily at least, been removed from the field. Twenty years ago Great Britain exported four times as much steel as Germany but in the last year before the war, it is said, Germany exported a million tons more than Great Britain.

SAID WASHINGTON DESERVES TROPHY

The following excerpt from the Greenfield Republican relative to the Washington C. H. High School basketball team and its winning the series in the South Central Ohio High School Basketball Tournament will be read with interest by local citizens.

"The beautiful cup, the trophy of the tournament, will abide in our neighboring city, Washington C. H., for the next year and never did a team so thoroughly deserve the honor. The Washington quintet was one of the fastest teams ever seen on the local floor but in addition to their ability to play the game they gave fine exhibition of real sportsmanship throughout the tournament that made them favorites with the crowds in the final game of the series.

"To Buckskin belongs the honor of opposing the Fayette county lads in the decisive game. The game was a fine one, both teams fighting hard. Washington gained a big lead early in the game and then slowed up. Buckskin seized the opportunity and for a few minutes outplayed their opponents, tying the score. With the score 23 to 23 the Washington team settled down to hard work and soon gained a safe lead. From that time the result was never in doubt. The game ended with the score 46 to 23 in favor of Washington."

PROMINENT DOCTORS EXCITED AND AMAZED

They Are Worked Up Over The Action of Phosphated Iron Making The Weak Strong

Victims of weak nerves and run down systems due to lack of pure blood will be glad to know that there is, according to the best physicians a reliable remedy for them.
Many who were steadily going down hill to permanent illness and nervous breakdown have regained perfect health by taking Phosphated Iron, the new blood and nerve food.
One elderly woman said, "I was all in, looked and felt the last run of shad, was clear discouraged without ambition or appetite. Now look at me! I have the good health and bubbling spirits of a girl of eighteen, eat and sleep well. It made a new man of my husband too. And though we are well along in years we both face the future with confidence, knowing that as long as our blood is charged with good health-giving Iron and Phosphates we are safe."
Again a bookkeeper who used it says: "If ever a man had a case of nerves it was me. I could not sleep at night, the least sound made me jump, appetite gone, everything was up hill work and I felt myself slipping every day. Now I am a new man."
Frank Christopher, the Druggist, doctor said: "Try Phosphated Iron, it is the exact remedy you require." The first week I improved; my nerves steadied down so that I slept, my appetite and digestion improved, and it seemed to me that I could almost feel the Phosphates and Iron feeding my weak watery blood and tired nerves. I now weigh 25 lbs. more than I ever did, and much stronger!"
A prominent physician to whom the above statements were submitted said: "Yes, Phosphated Iron is easily the most wonderful Iron prescription yet discovered. Its ingredients are well known to all blood and nerve specialists and widely prescribed by them. I have used it very successfully in my own practice and cured many patients where other physicians had failed. I can highly recommend it for all cases of weak nerves and poor blood, as well as general loss of tone, with absence of appetite. It seldom fails me in this class of cases."
Special Notice: To insure doctors and their patients getting the Genuine Phosphated Iron we have put in capsules only, so do not allow dealers to sell you pills or tablets.
